

Center for Mission
Mobilization

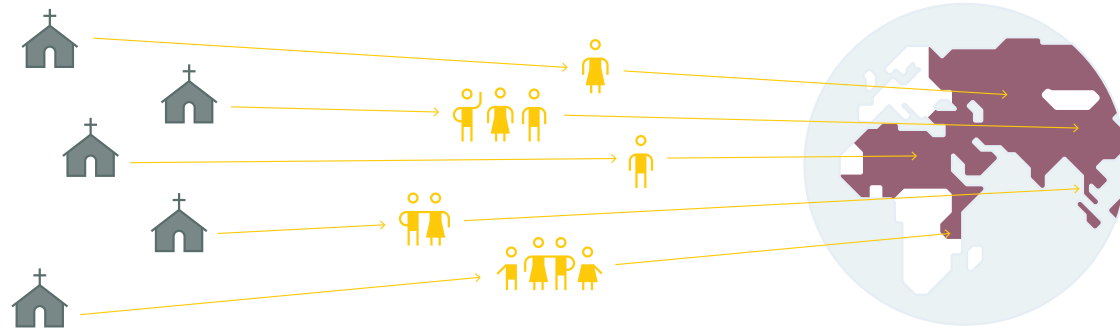

Mobilize students with us!

You can play a key role in resourcing, equipping, and training collegiate ministries worldwide to shepherd their students to the unreached.

- Kenyan students study *Xplore*, our flagship resource. By lesson three they were convicted to lead their own *Xplore* study with their fellow students, all of whom began fasting from Wednesday lunches to support an African missionary who serves among the unreached.

Help students connect their faith with the least reached.

Discover

We guide churches in Asia, Africa, and Latin America into a biblical understanding of their role in God's mission, opening their eyes to their proximity to the unreached.

Develop

We provide training and discipleship to develop believers for their role in God's global mission, whether it be praying, sending, welcoming, mobilizing, or going.

Deploy

Through partnering with indigenous mission agencies, we connect believers with opportunities to deploy as full-time mission workers. We also provide training in support raising, the number one barrier to mission sending.
